and enables us to:**

- *Provide volunteer and paid personnel*
- *Maintain and replace emergency units*
- *Purchase and maintain equipment*
- *Train personnel*
- *Ensure that emergency medical services are continuously available to you*

DID YOU KNOW?

- In 2016, we responded to over 2000 emergency transports in the Georgetown area.
- To ensure constant coverage, our three basic life-support ambulances are staffed with both paid and volunteer personnel, enabling us to provide emergency care 24 hours a day, 7 days a week.
- All of our emergency Medical Technicians (EMTs) comply with Delaware state regulations by receiving upgraded certifications, which include 90 hours of classroom time. Extra hours of training for Continued Education Units (CEUs) are also required to keep the certification active, and to consistently meet standards of excellence.

How does the Subscription work?

Your annual \$50 subscription will cover emergency transportation of all of your household members to the nearest medical facility.

We will bill your health insurance provider for the emergency transports, and if you have donated to our fund drive, we will accept what your insurance company will pay - you will not be billed any additional fees.

For example:

- Ambulance service for John Doe..... \$550
- Insurance company pays..... \$500
- Amount waived, if John Doe is a subscriber to our services..... \$50

John Doe must remit the balance of \$50 to the Georgetown Ambulance if he or she has not subscribed for our services.

Note: The above explanation reflects a third-party billing process, implemented due to the increased cost of personnel and medical equipment.

Subscriptions begin May 1, 2017 and end May 31, 2018
