

CPR Training

The knowledge of doing CPR could save a person's life. More importantly it could be the life of a complete stranger, friend or even a family member. No one ever expects or anticipates a medical emergency that may occur to put this skill to test but it should be comforting to know that if the unexpected happens that you have the knowledge and knowhow to perform this lifesaving skill.

The Harrington Fire Company is pleased to offer CPR training to those who wish to learn and become certified in this skill. This is open to the general public, businesses, groups or individuals. In some cases, this skill is needed for employment. If interested please contact us for information.

Due to the cost of instruction materials and equipment needed to certify individuals there is a cost associated with this service.

Cost per student:

- \$75 for Pediatric, Child and Adult CPR / AED
- \$40 for Skills Services Only*

*Skill Services is offered for individuals that have completed an online CPR Course and is in need of Skills Testing for certification

Classes are typically done at the Harrington Fire Company at scheduled time, however remote classes are available upon request for groups more than 6.

The Harrington Fire Company thanks you for wanting to make a difference by learning CPR. This important skill may not only save the life of a stranger, friend or family member but could save YOURS!

To schedule a class please use the QR Code for contact information (phone number and email) for Jason Roswell.
