2024 APPARATUS FUNDING CAMPAIGN

Dear Friends and Neighbors,

Thank you for the outpouring of support last year with our apparatus fund drive! Your contribution allowed us to commence with the first step in our apparatus replacement initiatives – replacing one of the two engines at our Long Neck facility. This replacement unit arrived in July 2024 with a price tag of \$840,000.

16 years old

The second step in our apparatus replacement initiative will commence shortly with an estimated delivery date in November 2024.

23 years old

This apparatus replacement project will allow the Indian River Volunteer Fire Company to continue to serve its fire district with exceptional state-of-art apparatus, delivering advanced visibility, greater space accommodations, improved ergonomics, and streamlined serviceability.

As our fire district experiences unprecedented residential growth with new housing developments commencing all the time we must continue to acquire apparatus and equipment to accommodate the essential services demanded by our community.

Our goal is to provide the best equipment and apparatus possible for our most important resource—the highly trained and motivated personnel that are ready to respond to your emergency. Through the combination of these resources, we can be there to help you when you need us!

Our personnel pursue lengthy training initiatives to hone the skills necessary to serve you. Our firefighter personnel are 100% volunteer.

We could not operate without the continued support of you – our community stakeholders.
