COVID 19 PUBLIC SAFETY ANNOUNCEMENT

September 20, 2020

The New Castle County Volunteer Firefighter's Association and the New Castle County Fire Chief's Association send out this fifth public safety announcement to our residents to remind them of our commitment to your health and safety. As the world tries to open-up slowly and unfortunately may have to take steps back because of the numbers dictating our moves, remember to stay safe! This means to keep washing hands, wiping down surfaces, wearing masks when needed, and be mindful of social distancing. This virus has been a formidable foe and we are still battling it daily.

The fire and EMS services in your respective communities are continuing to work hard to keep you and your family safe. They still need your help, though. Be sure when you call 9-1-1 for an emergency that you let them know that there is a person in your home that is COVID-19 positive or if they are having symptoms advise them of that fact. We must be ever vigilant so that we can do our best to slow and sometime soon stop this virus. So, take the time to give the appropriate information and help us fight this fight.

If you are out and about, please be sure to park in an appropriate place. Many restaurants have people parking in the fire lanes when they are picking up their orders. If you pull up there, then be sure the driver always stays with the car to be able to move it in an emergency. It would be horrible to have a bad outcome occur due to the fire company or ambulance be unable to get to the spot.

Sincerely,

Jim Watson
